**SAFETY CHECK**

Please note that another event taking place at the Congress Centre will have security scanners in place at the front entrance on the 17th May. Therefore, there could be a delay upon entering the building on this day so please arrive with enough time to register.
RUN FOR HEALTH

Run for Health is organized as a joint morning training led by the ELS President Ricard Simo. The run is going to take place in St. James’ Park. The route will be 4km, and the run will not be timed.

Meeting point: Queen Elizabeth II Centre
Date: Saturday, May 19, 2018
Meeting time: 07:20
Start: 07:30
Price: Free for all participants

INDUSTRY SPONSORED SYMPOSIA PROGRAMME

Fisher & Paykel Healthcare

Thursday, May 17, 2018, 13:45–14:45
Westminster (4th floor)
No Tube, No Catheter, No Movement – The Optiflow THRIVE™

Technique for Laryngeal Surgery
Imran Ahmed, Airway Anaesthetist, Guys Hospital (UK)
Anil Patel, Airway Anaesthetist, Royal National Throat Nose and Ear Hospital (UK)
Reza Nouraei, ENT Consultant Surgeon, Poole Hospital (UK)

Friday, May 18, 2018, 13:15–14:15
Fleming (3rd floor)
Future Trends and Visualization in Larynx Surgery

Image1 S in precancerous lesions and cancer of UADT
Roberto Puxeddu (Italy)

Near-Infrared Endoscopy with Indocyanine Green in Otolaryngology
Orlando Guntinas-Lichius (Germany)

Makings of VITOM 3D in transoral laser microsurgery: subligamental cordectomy CO₂ laser assisted
Giorgio Peretti (Italy)

Storz Endoscopy

Friday, May 18, 2018, 13:15–14:15
St James (4th floor)
The CO₂ Gold Standard: Evolution and Versatility
Moderator: Marc Remacle (Belgium)

CO₂ Laser FreeBeam modality for laryngeal and tracheal pathologies
Guri Sandhu (UK)

Flexible endoscopy procedures in outpatient settings
Guido van den Broek (The Netherlands)

Experience with OtoLase for otosclerosis
Stephan Lang (Germany)
Q&A
Visit us at booth # 6

Join our Lunch Symposium:
“The Lumenis CO₂ laser Gold Standard: Evolution and Versatility”

Learn from the experts on how CO₂ laser is utilized for a wide range of head & neck and otology applications combining the FreeBeam and fiber modalities, both in the OR and in outpatient facilities.

Date:
Friday, May 18, 2018

Time:
13:15 - 14:15

Location:
St. James (4th floor)

Moderator:
Prof. Marc Remacle

Panel:
Prof. Guri Sandhu, London University, UK
Dr. Guido van den Broek, Radboud University Medical Center, The Netherlands
Prof. Stephan Lang, UniKlinik Essen, Germany

“Providing precise, individualized patient care can be challenging for ENT surgeons because of the broad spectrum of surgical situations that can arise during the procedure. With the combined modality of the CO₂ laser and the easy shift between free beam and fiber deliveries I can delicately address any clinical challenge while preserving healthy tissue, which is very important for the patient’s recovery and comfort.”

Prof. Marc Remacle, Centre Hospitalier de Luxembourg

Features
An archive of our editorial content currently running as far back as 2014, making it easier for you to share and access valuable, in-depth educational content from recent years.

Development
A combined section on Professional Development, gathering together the shorter educational resources we publish to provide you with a unified treasure-trove of training tools.

Reviews
An enhanced Reviews section, providing our authors’ take on the most significant recent journal articles, book publications, and digital releases as well.

Events
An expanded Events Diary, helping you keep up-to-date with all the upcoming courses and conferences — and providing more detail than we’ve previously had space to publish.
